Our Ride Kenya Horse Safaris allow guests the opportunity to experience fantastic and unique riding destinations on well-schooled and beautifully turned out horses under the shadow of Mount Kilimanjaro.

Combining one of Africa's greatest wildlife areas with quality horses and guides has to be one of life's most memorable experiences.

Let your horse take you on a journey of freedom and adventure, with the sound of hooves replacing the grumble of a car engine. The exclusive wilderness areas of the Chyulu Hills are yours to discover.

The exclusivity of the Mbirikani Group Ranch ensures we ride in true wilderness. On our adventures we are more likely to come across the paw print of a lion than the footprint of a human being!

Expect to encounter elephant, giraffe, buffalo, eland, zebra, wildebeest, topi, Grants gazelle, the graceful impala, delightful Thompsons gazelle, warthog and even a gerenuk or two.

Our horses live in airy and comfortable custom-designed stable blocks and are carefully selected for their comfort and temperament. These fun to ride but well-mannered mounts love their jobs which is evident by the way they eagerly stride out each new day with ears pricked, ready to explore the environment they call home. They are our pride and joy.

Rides can be enjoyed from ol Donyo Lodge for all levels of riders, from intermediate to advanced.
